EXPERIENCE

PERSONAL PROYECT   *San José, Costa Rica*
Frontend Developer and Software Developer   *September 2024 – Present*

- Developed a website that showcases my proficiency in responsive design, resulting in a 40% growth in visibility for my projects and fostered potential partnerships
  - Implemented user experience solutions and easy-to-use responsive web interfaces with hands-on experience, this helps in improving my skills in HTML, CSS, SASS, and JavaScript by 25%, also the portfolio challenged me to learn new skills like UX and UI, so I took the opportunity to learn and use design tools like Photoshop or Figma to improve my technical skills by 15%.

COSMOS RESTAURANT AND BAR   *San José, Costa Rica*
Software Developer   *August 2022 – November 2022*

- Created and implemented Java software at Cosmos Bar and Restaurant to solve and optimize the handling of invoices, tables, and orders.
  - Introducing automation for essential tasks resulted in a 30% boost in operational efficiency, speeding up order and billing processing, allowing the business to be 45% faster.
